

Spay/Neuter Assistance Program

It is that heartbreaking time of year again...so many little puppies and kittens born and then turned into rescues and shelters, or abandoned through no fault of their own - except to be born into over-populated communities, especially likes ours here in the south. One of our local shelters sadly had 151 pets turned in last week alone.

The answer of course is to get females spayed and males neutered. As funds allow, Rescue K911 is always ready to help those that need help in this area, as it is near and so dear to our hearts. Through the kindness of one of our precious donors, we recently held a month long campaign, 'Fix Yo Mamma,' in June where we offered \$50.00 assistance to those in need in our local Tallapoosa County. The response was overwhelming. We were able to help over 40 pets in need, but were soon out of funds. Since then we have received even more requests like the one pictured above from Felix, also an elderly lady on limited income, and also from several

Felix and Jayde his dog

*Dear Rescue K911:
Hello, My name is Felix and I am 14 years old. I rescued a female pit bull puppy, she wasn't being taken care of and I wanted to help. But I don't want her to be able to have babies. I don't have a lot of money but was wondering if you could tell me or help me find someone that can help me with this.
Thank you*

pet owners in Opelika, who live in the projects. The need is so great! It is a wonderful feeling to know that you helped ebb the tide of many more that would have been born into homelessness, neglect or abuse. We are asking your help to help us keep on our crusade to do what must be done. Any gift of our SNAP, (spay/neuter assistance program) at this urgent time would be most appreciated.

Thank you so much for your kindness to us and for helping those that need us so badly.
Larry & Loraine
& all the little ones of Rescue K911

Mabel

She came to Rescue K911 on a Sunday afternoon in May. An elderly yellow lab in pretty rough shape. The man who pulled up our driveway said he had found her along the roadside, laying in a ditch. She had a hard time walking, she had a large cyst on her hind quarter and pretty bad diarrhea. We really didn't have the space, but we couldn't turn her away. We took her in, made her a soft bed along with our other elderly and special need residents in Shadows Rest. We named her Mabel.

We took Mabel to Dadeville Animal Clinic first thing on Monday. Dr. Lisa said she is probably 10-12 years old. She is heartworm positive. She has a lot of arthritis in her knees and hips. The mass on her side looks to be a Lypo-sarcoma and will need to be removed as soon as she gets a bit stronger. She was dehydrated so her kidney values were up. She soon began to eat and drink again so that was good news. She is now on pain meds, has been wormed and on a good diet.

Update: Mabel continues to improve. We used to have to help Mabel get up and down but now she is getting up on her own. She goes down the ramp at Shadow's Rest to the backyard where she does her business and enjoy the sunshine. Vet says she is ready now to have the tumor removed from her hip. Please keep Mabel in your thoughts and prayers, her medical needs will be ongoing. She is a fighter and doing well and appreciates anything you do for her. Special thanks to everyone that has helped Mabel along, and other elderly residents of Shadow's Rest.

Recent Rescues

Cletus is our most recent rescue. He was found abandoned on Lake Martin. He is approx 3 months old and a lovable hound dog. Full of love and play. Loves to be held and would stay in your lap all day.

Stormi is also another adorable rescue. On a dark and stormy night, she found her way to one of our neighbors house who called us the next morning. She is so very smart, housetrained and just needs a loving family who will love and take good care of her.

HomeComing Day

Lady

It was our hope and prayer that Lady, one of our recent rescues, would be adopted and being heartworm positive, that she would have a home to recover in after her treatment, and that is exactly what happened. The Holloway family drove all the way from Georgia to meet Lady. They fell in love with her, adopted her and waited patiently for her as she went through her treatment. We heard their home to recover in. We hear she is doing well and is greatly loved. Thank you dear Holloway Family!

Heidi Heidi is one of our most beloved dogs. She watched patiently as two of her sisters were adopted. Now it is her turn. Thank you Sarah, one of our wonderful volunteers, who opened her home and heart to Heidi. We wish them a lifetime of happiness together.

Mickey. Thank you for opening your heart and home to one of our most precious.

Skye

Skye was another little stray needy puppy that came to us. She captured our hearts the minute she arrived. So very smart and such a lovable personality. Once she was back to health, one of our volunteers, Brandy, fostered Skye which then enabled her to be chosen and travel up north through For the Love of Labs Rescue. She is receiving lots of adoption applications and we hear will soon have her forever home. Thank you Brandy and FTLOL!

New Summer T-shirts

This T-shirt says it all..and is the sentiment of everyone here at Rescue K911 and why we work so hard to help as many as we can. They come in Small, Medium, Large, XLarge, 2X & 3X. \$15.00 + \$5.00 shipping. (they are short sleeved) Please let us know if would like to order one:

Name _____

Address _____

Blu & LuLu
 You may remember this brother and sister that came into Rescue K911, arriving so malnourished. We are happy to report that both Blu and Lulu

Total _____ + 5.00 Shipping
